

Gazi Md. Saiful Hoque
Senior Android Developer

📍 Dhaka ✉ saifulhoque30@gmail.com ☎ 01515672237 🌐 [saiful-hoque](#)

SUMMARY

Experienced Android Developer with 5+ years of experience in designing and developing advanced applications for the Android platform using Kotlin and Java, collaborating with cross-functional teams, working with outside data sources and APIs, unit-testing code for robustness, and continuously discovering, evaluating, and implementing new technologies to maximize development efficiency, seeking a new opportunity in a 100% remote/hybrid team environment.

EXPERIENCE

Senior Software Engineer

BJIT

November 2021 - Present

- Implemented new features and functionality for Android applications using Java and Kotlin. Also worked on various projects using Jetpack Compose.
- Collaborated with cross-functional teams to design and develop mobile applications that met business requirements.
- Integrated RESTful APIs and third-party libraries to enhance application functionality.
- Experience working in an Agile/Scrum environment.
- Project management skills using tools such as Redmine, Jira, Confluence, and Git.
- Prototyped and built innovative features using the newest APIs and SDKs on the Android platform.
- Solved complex business problems while ensuring the product is highly scalable, secure, and performant.
- Worked with various platforms, such as AI, AR/VR, and backend.

Jr. Software Engineer

SURROUNDAPPS INC LTD

June 2019 - November 2020

- Implemented new features and functionality for Android applications using Java and Kotlin.
- Collaborated with cross-functional teams to design and develop mobile applications that met business requirements.
- Integrated RESTful APIs and third-party libraries to enhance application functionality.
- Worked with the full Android development cycle: design, develop, QA, experiment, analyze, and deploy.

PROJECTS

Meter Reader App

BJIT • May 2024 - Present

- Conduct the requirement understanding and work breakdown analysis
- Design and development of a comprehensive mobile application using modern Android development practices.
- Implemented the MVVM architecture to ensure a clear separation of concerns and enhance code maintainability.
- Reviewing and contributing to development as Team Lead.
- Cross-team collaboration.
- Integrated Google Maps, Firebase, Hilt, Retrofit, Room, Navigation Component, etc. with Jetpack Compose in the application

Enzan BMS

BJIT • February 2023 - May 2024

- Design and development of a comprehensive mobile application using modern Android development practices.
- Initial project architecture design and development.
- Cross-Team collaboration.
- Worked with the full Android development cycle: design, develop, QA, experiment, analyze, and deploy.

Mobicomma

BJIT • January 2022 - September 2022

- Developed key features of the application using Kotlin and Android frameworks, ensuring high performance and responsiveness.
- Integrated Retrofit for seamless network communication and data retrieval from APIs.
- Utilized Firebase for backend services, including Firestore and FCM for push notifications.
- Employed Coroutines for asynchronous programming to enhance the app's performance and responsiveness.
- Integrated Zenrin Map SDK for advanced mapping and location features, enhancing the user navigation experience.

JogaJog

SurroundApps • June 2020 - October 2020

- Contributed to the development of a social networking application, focusing on real-time messaging features.
- Implemented RESTful APIs for seamless server communication and data retrieval.
- Developed user interfaces using XML for dynamic and responsive layouts.
- Ensured consistent design and user experience across different screen sizes and orientations.
- Debugged and resolved issues related to API integration and real-time communication.

Learn Together

SurroundApps • March 2020 - June 2020

- Developed an educational platform that facilitates real-time communication between students and instructors.
- Implemented the MVVM architecture to ensure a clear separation of concerns and enhance code maintainability.
- Designed and implemented user interfaces that support dynamic content and real-time updates.
- Ensured the application provided a seamless user experience across various devices and network conditions.

EDUCATION

MSc in IT

INSTITUTE OF INFORMATION TECHNOLOGY, DHAKA UNIVERSITY • Dhaka • 2022

BSc in CSE

BANGLADESH ARMY INTERNATIONAL UNIVERSITY OF SCIENCE AND TECHNOLOGY • Comilla • 2019

CERTIFICATIONS and AWARDS

BEST PERFORMER OF THE YEAR – 2025

BJIT - 2025

BEST PERFORMER OF THE YEAR – 2024

BJIT - 2024

Android Jetpack Compose with Retrofit, Room, and Hilt in Kotlin

Udemy • 2024

Clean architecture in Android using SOLID principles and MVVM

Udemy • 2022

SKILLS

- Java-Kotlin-Jetpack Compose-Retrofit-Hilt-Dagger2-Coroutine-Room
- Firebase-ML Kit-Clean MVVM -FCM-Google Map API
- Unity-Vuforia-ARCore
- Springboot-Hibernate-PostgreSQL-MySQL
- .NET Core-Winform-MSSQL-Blazor
